WARNING FROM ABROAD

VANKEE WIVES, FOREIGN HUSBANDS

Brutal Treatment of Tenderly-Nursed Amarican Girls by German Musbands-Fitting Reward For Title-Hunters.

WASHINGTON, Nov. 21.—Joseph F. Potter, our Consel at Crefeid, Germany, has been making investigations in regard to a matter of great interest to our fair countrywomen, and the result of his labors is to be found in a report full of information of the most vital interest. He has been inquiring into the results of marriages between American girls and German nobles, and what he tells us is most startling.
In thirty-three marriages cited there has

not only not been a single happy unlon, but either a divorce or abandonnment has speedily followed the wedding. He finds the reason for this unhappy state of allairs to be that the American wives have in every instance been brutally treated, and in some cases absolute violence has been used. Tho brides were expected to perform the most menial offices. In one instance, the husband, who is an officer of rank in the German army, demanded that his wife perform the service usually expected from a servant of the humblest sort, and one of the things she was ordered to do was to superintend the cleaning of his boots. This lady was the daughter of a leading railroad magnate In a Western State, and the story she tells is a most pitiable one.

Her hard-headed father took the pre-caution at her marriage to settle his daughter's fortune upon her, and tied it up in such a way that she could not relinquish its control even if she desired to do so, After many humiliating tasks had been given this lady, the boot-cleaning was required. Then the rebeiled. She drew the line there, and with her American blood at the boiling point she flatly refused. Her warrior husband, who, besides his military rank, has the title of Count, attempted to eaforce discipline in his family by using his riding whip npon his recalcitraat bride, and after a serious time of it she evaded the flogging and left the bed and board of the knightly Uhlan for her native land. Her husband could not prevent her departure, but tried to compet the payment of a certain sum of money by way of salve to the wounds his sensibility received by her abrupt departure. He did not succeed, for the lady had no property in the Province that could be held, so she got away without further ioss of time.

THE WAR IN EGYPT.

Cowardine of the Egyptian Troops British to Interfere.

LONDON, Nov. 21.—The Governor of Suakim has telegraphed to the Khedive that, although the Bedouins were numerically inferior to the Egyptian troops, the latter attempted no stand, but divested them-selves of their arms and ciothes, and rushed naked into the sea, forsaking the Turkish officers commanding them, who were killed. THE IRON INDUSTRY.

No Fears of a Panic Entertained by

Manufacturers. NEW YORK, Nov. 21.-A leading repreentative of the luterests scouts the idea of pauic, and asserts that there is nothing in the present scare. Since last spring many furnaces have been blown out and numerous rolling nells have been but on single turn. A majority of nail mills have refused to overstock the market with their product. In regard to steel rails, only those that can muke rails at \$31 can afford to run regularly, and the others will have to stop or run only at intervals until the demand increases. It is believed that the production of all leading fron and steel prolucts will be no greater than the demand, and prices will recover when this point is reached. A boom during the early part of next year is, therefore, not improbable. During the present month three furnaces in Pennsylvania and one each in New York. Georgia, Alabama and Michigan, will blow in, all of charcoai, while in New York and Pennsylvania there will be two authracite and, in Ohlo, Alabama, Pennsylvania, West Virginia and Tennessee, there will be nine bituminous, in all nineteen furnaces which will blow in this month, while the furnaces which will blow out will be six cnarcoal, three unthracite, and six bitumi-

Cashter of an Indiana National Bank Ranged in the Night and Killed By a Prowling Thief-Great Excitement.

CONNERSVILLE, IND., Nov. 21.-Edward Payne, cashier of the First national bank, lived in a pleasant home with his wife and chiblien. Aroused by an unusual noise in the night, he was coming down stairs at 4 o'clock this morning, when a burglar standing in the hall below fired with fatal aim. Puyne sunk on the stairs and the assassing and his comrade in crime fled. The family were aroused by the report of the pistol, hustily arose, and hurried to the spot.
Medical aid was hastily summoned, but
the wounded husband and father, was past
human bein, he quickly breathed his last in the arms of his wife. A search through the house showed that the burgiars had been interrupted lu their nefarious work before securing any booty. A vigorous scarch is being made for the murderer, and as the alurm so quickly followed the crime it is thought that he will certainly be found by nightfall. The country is being aroused by armed parties. Business in the town is practically suspended. In Connersville, where the murdered man was well and favorably known, the feeling is very intense, and the murder is the one theme of

Nevere Consure By the Coroner's Jury. CHICAGO, Nov. 21-The Coroner's jury

which has been investigating the recent fatal rollision on the C. B. & Q. railroad, near this city, have returned a verdict finding that the accident was caused by the carlessness of Conductor Win. H. Doyle and Engineer Young, of the wild freight, which crashed into the passenger train, the freight train at the time being run at an excessive rate of speed. Another cause, the jury sny, was the gross indiscretion of George Alexander, Superintendent, and A. Miller, train dispatcher, of the Burlington road, as well as that of Daniel Wedge, local yard master, in sending out a freight train so heavily loaded as to be numningable, and with about all the carsi supplied with defective brakes. Warrants have been issued for the arrest of all the

The body was discovered in the viacyard of one Jose Auzel Peren, It seems that Candoloria und l'eren had a long and bitter feud, and the latter entired the former to his house and beat his brains out with a club, the four grown daughters of Perca assisting in the deed. The body was at first buried in the burn, but afterwards taken up and luterrod in the vineyard. A little five-yearold sen of Perca gave the murder away. All were arrested and are now in jail. There are fears of lyaching on account of the great excitement among the Mexican

St. Louis, Mo., Nov. 21.-Mr. Cornwallis West, husband of the famous English leanty, is here by invitation of Jay Gould. iteferring to the attacks made on the reputation of Mrs. Langtry, he said: "She has suffered some in reputation by her American experiences, and I call it a great sinune. Much of what has been written about her I is scandaiously falso, and the rest, I think, is the result of a harmless fancy on her part. It is really too bad that the newspapers should do so. If it had been a man now it would have been different, but behig a woman, I call it a little cowardly. Her reputation here will not affect her standing in England."

Revolutionary Literature.

LONDON, Nov. 21.-Another startling scizure of revolutionary literature is reported from St. Petersburg. The police of that city have just seized a large quantity of pumpillets cutitled "Penal Servitude and Tortures-the Dead to the Living." book describes in vivid language the sufferings of political prisoners in Sibera and elsewhere, uader which it says many innocent victims have died leaving secret records of their tortures which are now collected and published to point out to the living the duty of vengeance. It urges a general rising for the purpose first of resening the prisoners, and then of organizing an armed and open revolution.

A Bad Manager.

CHICAGO, Nov. 21 .- Henry Melville, claiming to be manager of the New York ideal dramatic company, is in trouble. He mushed, in New York, Mrs. Alice Macer, who has an insane husband. She gave him (500) to come to Chicago and get her a illcarce. He took the money, lived with another woman, and then wrote for and obtidined \$700 more from Mrs. Macer, on pretense of starting a store. She came on ater, and was so mad when she learned the truth that she had him pulled up in the miice court as a swiudlar.

COUNTERFEITERS.

and followed and captured thirteen of the shewdest shovers of the queer that were ever landed in one net. It was known as the Houchin gung, and comprised Jesse, Joe and Columbus Houchin, Barney Smitten, David Wesley Wood, Zim Kinder, Henry Grossman, Joe Per-kins, William Taylor, William Redman, Jake Crezelous, and Tom and Laura Ann Comer.

Tom Comer is regarded by the officers expert and dangerous counterfeiters in In this city, under the name of Harry Homer, of counterfeiting, and sent to the pen for eight years. He also admitted that he had served a term for conaterfeiting before the war. Laura, his wife helped make the goods, and made trips through the country setting and passing. The price for the spurious ranged from 20 to 35 cents on the dollar. Laura and Tone have been married but two years, and are very devoted to each other. She is a Kentuckian, and rather lady-like. "I don't care what you do with me if you will only let Tom go," she wailed to the officers. Tom says: "I am old crook, and you've got my record. Send me up but for God's sake let Laura go."

The Houchins, the lenders, lived near Pikeville, a disreputable hole fourteen miles from the nearest railroad. It has bare two hundred lubhbitants, including flyo houses of ill-fame and three saloons where the worst kind of five-cent whisky ls sold. The Houchins ran the neighborhood. They were not men of extraordimary size or strength, but terrorized over the community by reason of their readiness with revolver and knife. The sheritt of Pike county had six indictments against them for various crimes, and never dared to make an attempt to arrest them. They even forced people to take their counterfeit coin. Two of the Houchins went into Burnett's saloon, one day, absorbed a couple drinks of the cent whisky, and threw down a counterfeit \$5 gold piece. The saloonist, who had seen that kind of coin before, protested that he couldn't take it. "Lum' Houchin whipped ont a revolver and it," and Burnett counted out \$4.90 ln good coin of the realm. Afterward, when the saloonist complained of the act they forced him to shut up shop and skip the

Since their capture many persons have appeared to testify against the gang who did not dare to say a word while they were promised a light sentence if he would tell the whole history of the gang, but he boldly swore he never handled a dollar of counterfeit money in his life. His father told the officers that the gang had fregang, swore that the first time he ever rode on a railroad train was when he was arrested and taken to indianapoolis. Zim was weaned a counterfelter. Ills father was an expert, and the boy took lessons in the art from his mother at a very early age. Zim is the ber," to dispose of a stock of the spurious coin. Several of the detectives had, under disguises, worked their way into the secrets of the counterfeiters, and purchased large quantities of the spurious stuff. One of these men induced Zim to go to a hotel, where he was introduced to a powerful officer who clapped the handcuffs on him at the first

greeting. The chief man in securing evidence against the Houchins was a detective who sailed under the name of "Doc Henderson." He was a corn doctor, and had panaceas for numerous other Illa, and gathered in much bogus coin found with a babe in his arms, put there

members of the gang were gathered in with less trouble. With the gang were captured about \$2,500 in bogns coin, all the molds and other apparatus used in the manufacture, beside a perfect arsenal of arms, including fourteen selfeocking revolvers and a number of brass and lead knackles. One pair weighted over three pounds, were sharp-pointed, and in the hands of a strong man would easily fell an ox. Tom Comer had a double barreled shot-gun, and two magnificen 44-calibre self-cockers. These of the captured men, if demanded; otherwise, they are sent with the spurious coin, molds, etc., to Washington.

The machinery for the manufacture of the coin was not cumbersome, and could be easily transported from place to place It consisted of plaster of paris molds and the receptacle for the metals. The coin manufactured included gold pieces of the denomination of \$10, \$5, and \$21, and silver dollars, halves, quarters and dimes. Nickels were also made. The principal ingredients were hismuth, animony, block tin and Babbitt metal. Some other ingredient was used to make the gold counterfeits heavier. They were afterward coated in an electro-plating bath. The casts were make in two pieces and joined by a blow pipe. The plating covers this joint plating covers this joint.

The task of working up the case against these men was no easy one. Several de-tectives were required to masquerade for nearly a year as thieves and gamblers, All were required to make daily reports of their doings to the chief, and these in turn are forwarded with the chief's daily report to Washington. All the captured parties were photographed, and each one's history sent therewith to the department of justice in Washington. Often indictments and convictions on other counts are kept hanging over the criminals, and when they are released from by the State authorities when the terms of the secret service as one of the most for present offenses expire. In Indiana an indictment runs out in two years if the country. In 1880 he was convicted the culprit is at large, but if in custody, it holds good until the sentence is served ont. The members of the gang just cm thred stuck to each other well, and but one of the thirteen offered to turn State's evidence. As his testimony is not needed, his offer will prohably not be uccepte l.

A Year's Chase for a Backwoods In-

Cincinnati Post. For many years that portion of Indiana located in the hills back of the Ohio river and locally determined as Pikeville, l'ike county, has been known as a 'llell on earth.' A gang of desperadoes, who on earth." A gang of desperadoes, who grew bolder by their success, ran the town and ruled the surrounding country, and intimidated even the authorities. Last February, Capt. Abbot, of Cleve-land, chief of the secret zervice district, which includes Ohio, Indiana, and Michigan, received direct orders to go down Into Pike county and clean out a gang of counterfeiters. It was well known that counterfeit coln of superior make emanated from that region, but it was another thing to get the evidence which would secure a conviction under the law. Abbot and three assistants began the work,

at large. Taylor, one of the gang, was the son of a respectable father. He was quently robbed him, but he never dared complain. Zim Kinder, another of the stalwart of the gang, was captured by strategy in a hotel at Boonville, where he was induced to go as a "job-

The last attack is an article reflecting on Mrs. Davis, the reference charging her, also, with parsi-mony. The distinguished citizen flew into a regular rage over the allusion, and expressed himself sulphurously.

Rev. Father Wilds' EXPERIENCE.

The Rev. Z. P. Wlids, well-known cliy missionary in New York, and brother of the laie eminent Judge Wilds, of the Massachuetts Supremo Court, writes as follows:

setis Supremo Chirt, writes as follows:

178 E. 54th St., New York, May 15, 1882.

Messrs, J. C. Ayer & Co., Gentlemen:
Last winter I was troubled with a most ancomfortable itching immur affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely hear any civiting over them. I was also a sufferer from a severe catarrh and entarthal cough; my appetite was poor, and my system a good deal run down. Knowing the value of Ayen's Sarsala-anilla, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and itching were allayed, and all signs of irritation of the skin disappeared. My catarrh and cough were also cured by the amme means, ami my general health greatly improved, until it is now excellent. I feel a hundred per cent stronger, and I attribute these results to the use of the Sarsalalilla, which I recommend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less thim two bottles. I place these facts at your service, hoping their publication may do good.

Yours respectfully, Z. P. Wilds."

The above instauce is but one of the mmny constantly coming to our notice, which prove the perfeet adaptability of Aven's Sansaparilla to the cure of all diseases arising from impure or im-

poverished blood, and a wenkened vitality. Ayer's Sarsaparilla cleanes, enriches, and strengthens the blood,

stimulates the action of the stomach and bowels, and thereby emples the system to resist and overcome the attacks of all Scrofulous Diseases, Eruptions of the Skin, Rheumattsm, Catarrh, General Mebility, and all disorders resulting from poor or corrupted blood and a low state of the system.

The Peculiar Old Mystery!

It was one of the peculiarities of the old-fashioned Doctors that they never would tell patients what they were prescribing for them. They said it would do the patients no good to know, and that it would only be gratifying a foolish curiosity. In order to keep patients from knowing, they would write the prescriptions in dog-Latin, so that most patients could not read them. All that sort of thing is now over. The patient wants to know what he takes. He is weak, and wants to be strong, or he is dyspeptic, and wants to digest well. Or he has a troublesome liver which he wants to put to rights. So he takes Brown's Iron Bitters about which there is no mystery at all. This is the best preparation of iron in the world, in combination with gentle yet efficient tonics. It gives strength. It builds up enfectled systems. It enriches impoverished blood. It removes feminine weaknesses. It casts out debility It is what you want, and your druggist has it. 2
